# Subject Index

## Volume 7, 1992

**Acetabular components.** *See* Hip arthroplasty
**Age**
and knee arthroplasty in elderly patients, 261
and survivorship of cemented hip arthroplasty in younger patients, 347
**Air cleaning in operating rooms**
ultraviolet radiation in, 457
**Angled bearing inserts in knee arthroplasty**, 211
**Ankle**
arthrodesis in failed arthroplasty, 277
pain after knee arthroplasty, 447
**Antibiotics**
in intramedullary PMMA spacer for revision hip arthroplasty, 397
prophylaxis in knee arthroplasty, 17
**Anticoagulant prophylaxis**
and deep vein thrombosis prevention, 471
and pulmonary embolism incidence, 465
**Arthritis, rheumatoid**. *See* Rheumatoid arthritis
**Arthrodesis**
ankle, for failed arthroplasty, 277
hip, knee arthroplasty after, 63
***Aspergillus* infection**
in knee arthroplasty, 311

**Barrier methods**
for prevention of contamination in operative team, 267
**Biomechanical tests**. *See* Mechanical testing
**Blood transfusions**
in knee arthroplasty, postoperative blood recovery in, 205
**Bone**
ingrowth into porous-coated implants
in canine femoral component, 253
in hip prostheses, 381
in tibial components with autograft bone chips, 483
unrecognized femoral fractures affecting, in hip arthroplasty, 501
in weight-bearing canine model, 43
polyethylene-induced osteolysis in uncemented hip arthroplasty, 285
strength affected by cement removal with ultrasonic tools, 495
temperature response to different saw blades, 21
**Bone grafts**
acetabular allografts in revision hip arthroplasty, 271
in hip arthroplasty, 109
large-segment distal femoral allograft in supracondylar fracture after total knee arthroplasty, 7
in uncemented knee arthroplasty, 25
**Book reviews**, 221

**Cement**
intrapelvic, preoperative assessment in revision hip arthroplasty, 509
new femoral cement restrictor, 411
polymerization effects on metal-backed and non-metal-backed acetabular cups, 165
removal with ultrasonic tools, 495
**Cementless arthroplasty**
hip
acetabular micromotion in, 537
analysis of LSF prosthesis in, 353
compared to cemented implants for femoral component revision, 71
computerized templating in, 235
in diastrophic dysplasia, 369
displacement of acetabular component after dislocation of prosthesis, 303
Muller straight-stem femoral prosthesis used as press-fit in, 477
polyethylene-induced osteolysis in, 285
porous-coated prostheses in, 381
results with Harris-Galante porous components, 519
stability of press-fit acetabular cups, 295
subsidence in femoral components, 197
unrecognized femoral fractures in, 501

**Cementless arthroplasty** (*Continued*)
knee
bone grafts in, 25
micromovement of tibial tray in, 433
in osteoarthritis and rheumatoid arthritis cases, 137
PCA uncemented prosthesis compared to cemented PCA implants, 101
postoperative blood recovery in, 205
and removal of well-fixed patellar components, 217
three-year results with PCA prosthesis, 223
prosthesis–bone interface
corrosion in modular prosthesis, 291
extracorporeal shock wave lithotripsy affecting, 173
**Charnley arthroplasty**. *See* Low-friction hip arthroplasty
**Compression plating**
in femoral fracture after hip arthroplasty, 129
**Compression ultrasound**
in diagnosis of deep venous thrombosis in knee arthroplasty, 187
**Conical collared femoral component**
stability in hip arthroplasty, 389
**Contamination of operative team**
prevention of, 267
**Cyst**
popliteal
in *Aspergillus* infection after knee arthroplasty, 311
dissecting, in malfunction of knee arthroplasty, 37
pseudometallosis, with Moore prosthesis, 181

**Diastrophic dysplasia**
cementless hip arthroplasty in, 369
**Dislocation**
of hip prosthesis, and displacement of uncemented acetabular component, 303
and late disassembly of modular acetabular component, 453
in low-friction hip arthroplasty, 149
patellar, after knee arthroplasty, 229
of posteriorly stabilized knee arthroplasty, 161

**Elderly patients**
knee arthroplasty in, 261
**Embolism, pulmonary**
in hip arthroplasty, 465
**Exercise**
and hip arthroplasty in golfers, 339

**Femoral components**. *See* Hip arthroplasty
**Femur**
fractures of. *See* Fractures, femoral
**Fractures, femoral**
after hip arthroplasty, compression plating in, 129
Moore hemiarthroplasty for displaced fractures in neck, compared to bipolar prosthesis, 31
supracondylar, above total knee arthroplasty, large-segment distal allograft in, 7
unrecognized, in cementless hip arthroplasty, 501

**Gloves, surgical**
and prevention of contamination in operative team, 267
**Golfers**
hip arthroplasty in, 339
**Gonarthrosis**
management in poliomyelitis patients, 419

**Health care**
comparative study of knee arthroplasty in two delivery systems, 93
**Heat generation**
saw blade design affecting, 21
**Hematoma concentrations**
in antibiotic prophylaxis in knee arthroplasty, 17
**Hemiarthroplasty**
compared to bipolar prostheses in displaced femoral neck fractures, 31
**Heterotopic ossification**
prevention with indomethacin, 57
**Hip arthroplasty**
acetabular component in
cemented metal-backed, factors in loosening of, 365
effects of cement polymerization on metal-backed and non-metal-backed cups, 165
micromotion in, 537
migration of, 121, 377
modular, late disassembly of, 453
press-fit, stability of, 295
bone grafts in, 109
bone ingrowth fixation with porous-coated prostheses in, 381
deep vein thrombosis in, 471
in diastrophic dysplasia, 369
dislocation of, and displacement of uncemented acetabular component, 303
femoral cement restrictor in, 411
femoral component in
assessment of fit and fill of, 235
canine, bone ingrowth into, 253
conical collared, stability of, 389
metallosis from abnormal abrasion of, 439
Muller straight stem used as press-fit, 477
uncemented, subsidence of, 197
in golfers, 339
hemiarthroplasty compared to bipolar prostheses in displaced femoral neck fractures, 31
interface corrosion of modular prosthesis in, 291
intramedullary plugs in, 415
life expectancy after, 183
low-friction
dislocation in, 149
femoral component durability in, 327
survivorship in younger patients, 347
in lupus erythematosus, 51
malignant fibrous histiocytoma associated with, 549
*Pasteurella multocida* infection in, 309
polyethylene-induced osteolysis in, 285
preoperative planning in, 403

prevention of heterotopic ossification in, 57
pulmonary embolism in, 465
results with Harris-Galante porous components, 519
revision
acetabular allografts in, 271
antibiotic-impregnated intramedullary PMMA spacer in, 397
cement removal with ultrasonic tools in, 495
cemented and uncemented femoral component in, 71
preoperative assessment of intrapelvic cement and screws in, 509
ring failure in universal head replacement, 201
sciatic nerve palsy after, 551
stability of cemented sockets after years of service, 87
titanium wear debris in, 315
unrecognized femoral fractures in, 501
**Hip fusion procedures**
knee arthroplasty after, 63
**Histiocytoma**
malignant fibrous, associated with hip arthroplasty, 549
**Hydroxyapatite**
coating titanium rods, mechanical failure in weight-bearing model, 43

**Indomethacin**
in prevention of heterotopic ossification, 57
**Infection**
and antibiotic prophylaxis in knee arthroplasty, 17
and antibiotics in intramedullary PMMA spacer in revision hip arthroplasty, 397
*Aspergillus* in knee arthroplasty, 311
*Pasteurella multocida*
in hip arthroplasty, 309
in knee arthroplasty, 157
and prevention of contamination in operative team, 267

**Knee arthroplasty**
angled bearing inserts in, 211
ankle pain after, 447
antibiotic prophylaxis in, 17
cementless, in osteoarthritis and rheumatoid arthritis cases, 137
comparison in two health care delivery systems, 93
diagnosis of deep venous thrombosis in, 187
in elderly patients, 261
in gonarthrosis in poliomyelitis patients, 419
lateral patellar release in, 427
patellar dislocation after, 229
PCA prosthesis in rheumatoid patients, 101
popliteal cyst after
in *Aspergillus* infection, 311
dissecting, 37
posterior cruciate-sparing, preoperative deformities affecting, 527
posteriorly stabilized, subluxation of, 161
postoperative blood recovery in, 205
with prior ipsilateral hip fusion, 63
rating systems for evaluation of, 145
retained osteophytes in, 193
revision
removal of cementless metal-backed patellar components in, 217
rotational alignment of femoral component in, 531
survivorship analysis of total condylar prostheses in, 241
tibial component in
bone ingrowth into, 483
intramedullary devices in, 325
tibial defects in, bone grafts for, 25
tibial tray in, micromovement of, 433
tibial tubercle transfer in, 81
and treatment of supracondylar fracture of femur, 7
unicompartmental arthroplasty results, 247

**Letters to the Editor**, 325, 551
**Life expectancy**
after hip arthroplasty, 183
**Lithotripsy**
extracorporeal shock wave, affecting prosthesis–bone interface in cementless arthroplasty, 173
**Low-friction hip arthroplasty**
dislocation in, 149
durability of femoral component in, 327
survivorship in younger patients, 347
**LSF hip prosthesis**
analysis of, 353
**Lupus erythematosus**
hip arthroplasty in, 51

**Malalignment of knee replacements**
and use of angled bearing implants, 211
**Measurement of acetabular migration**
accuracy of, 121
two-dimensional radiography in, 377
**Mechanical testing**
of cemented hip sockets after years of service, 87
of porous-coated titanium rods in weight-bearing model, 43
of stability of press-fit acetabular cups, 295
**Metallosis**
in abnormal abrasion of femoral head, 439
and bone cysts with Moore prosthesis, 181
**Micromotion**
acetabular, in hip arthroplasty, 537
of conical collared femoral components in hip arthroplasty, 389
of tibial tray in cementless knee arthroplasty, 433
**Moore prosthesis**
compared to bipolar prostheses in displaced femoral neck fractures, 31
pseudometallosis cyst associated with, 181

**Mortality rate**
after hip arthroplasty, 183
**Muller straight-stem femoral prosthesis**
used as press-fit, 477

**Operating rooms**
prevention of contamination in, 267
ultraviolet radiation in, 457
**Ossification, heterotopic**
prevention with indomethacin, 57
**Osteoarthritis**
cementless knee arthroplasty in, 137
**Osteolysis**
polyethylene-induced, in uncemented hip arthroplasty, 285
**Osteonecrosis**
and bone grafts in hip reconstruction, 109
and hip arthroplasty in lupus erythematosus, 51
**Osteophytes**
distal femoral, retention in knee arthroplasty, 193

***Pasteurella multocida* infection**
in hip arthroplasty, 309
in knee arthroplasty, 157
**Patella**
cementless metal-backed component in knee arthroplasty, removal of, 217
dislocation after knee arthroplasty, 229
lateral release in knee arthroplasty, 427
**PCA prosthesis in knee arthroplasty**
for rheumatoid patients, 101
three-year results with, 223
**Plugs, intramedullary**
in hip arthroplasty, 415
**Poliomyelitis**
and gonarthrosis management, 419
**Polyethylene-induced osteolysis**
in uncemented hip arthroplasty, 285
**Polymerization of cement**
affecting metal-backed and non-metal-backed acetabular cups, 165
**Polysulfone**
coating titanium rods, mechanical failure in weight-bearing model, 43
**Popliteal cyst after knee arthroplasty**
in *Aspergillus* infection, 311
dissecting, 37
**Porous-coated anatomic system**. *See* PCA prosthesis in knee arthroplasty
**Porous-coated prostheses**. *See also* Cementless arthroplasty
bone ingrowth in. *See* Bone, ingrowth into porous-coated implants
**Preoperative planning**
in hip arthroplasty, 403
computerized templating to assess fit and fill in, 235
in revision hip arthroplasty, assessment of intrapelvic cement and screws in, 509
**Press-fit implants**. *See* Cementless arthroplasty
**Probenecid**
with antibiotic prophylaxis in knee arthroplasty, 17
**Pseudometallosis cyst**
with Moore prosthesis, 181
**Pulmonary embolism**
in hip arthroplasty, 465

**Quadriceps mechanism**
realignment in tibial tubercle transfer in knee arthroplasty, 81

**Radiography**
of acetabular cup migration in hip arthroplasty, 121
two-dimensional studies in, 377
of femoral component after low-friction hip arthroplasty, 327
of hip arthroplasty results
with Harris-Galante porous components, 519
in lupus erythematosus, 51
of LSF hip prosthesis, 353
of Muller straight-stem femoral prosthesis used as press-fit, 477
**Revision arthroplasty**
hip
acetabular allografts in, 271
antibiotic-impregnated intramedullary PMMA spacer in, 397
cement removal with ultrasonic tools in, 495
cemented and uncemented femoral components in, 71
preoperative assessment of intrapelvic cement and screws in, 509
knee
removal of cementless metal-backed patellar components in, 217
rotational alignment of femoral component in, 531
**Rheumatoid arthritis**
cementless knee arthroplasty in, 137
PCA prosthesis for knee arthroplasty in, 101
shoulder arthroplasty in, 1
**Roentgen stereophotogrammetry**
of acetabular cup migration in hip arthroplasty, 121
of subsidence in noncemented femoral components in hip arthroplasty, 197
**Rotational alignment**
of femoral component in knee arthroplasty, 531
**Rotator cuff deficiency**
and outcome of shoulder arthroplasty, 1

**Saw blades**
bone temperature response to, 21
**Sciatic nerve palsy**
after hip arthroplasty, 551
**Screws, intrapelvic**
preoperative assessment in revision hip arthroplasty, 509

**Shoulder arthroplasty**
in inflammatory arthritis, 1
**Staple fixation**
in tibial tubercle transfer in knee arthroplasty, 81
**Survivorship analysis**
of cemented hip arthroplasty for younger patients, 347
of cementless knee arthroplasty in osteoarthritis and rheumatoid arthritis cases, 137
of femoral component in low-friction hip arthroplasty, 327
of hip arthroplasty in lupus erythematosus, 51
of total condylar knee prostheses, 241
of unicondylar knee arthroplasty, 247

**Temperature**
response to different saw blades, 21
**Thrombosis, deep vein**
diagnosis in knee arthroplasty patients, 187
in hip arthroplasty, prophylactic regimens in, 471
**Tibia**
bone grafts for defects in, 25
intramedullary devices in knee arthroplasty, 325
medial displacement of tuberosity for patellar instability, 229
porous-coated knee components with autograft bone chips, 483
tray micromovement in cementless knee arthroplasty, 433
tubercle transfer in knee arthroplasty, 81
**Titanium**
porous-coated rods, mechanical failure in weight-bearing model, 43
wear debris in hip arthroplasty, 315
**Tourniquet use**
with antibiotic prophylaxis in knee arthroplasty, 17
**Transfusions**
and postoperative blood recovery in knee arthroplasty, 205

**Ultra-clean air enclosures**
in operating rooms, 457
**Ultrasonic tools**
for cement removal in revision arthroplasty, 495
**Ultrasound**
compression, in diagnosis of deep venous thrombosis in knee arthroplasty, 187
**Ultraviolet radiation**
in operating rooms, 457
**Uncemented arthroplasty**. *See* Cementless arthroplasty
**Universal head replacement**
failure of locking ring in, 201

**Warfarin prophylaxis**
and deep vein thrombosis prevention, 471
and pulmonary embolism incidence, 465
**Wear**
and interface corrosion of modular hip prosthesis, 291
and metallosis from abnormal abrasion of femoral head, 439
and polyethylene-induced osteolysis in uncemented hip arthroplasty, 285
and titanium debris in hip arthroplasty, 315
**Weight bearing**
and mechanical failure of porous-coated titanium rods, 43
**Wound healing**
after lateral patellar release in knee arthroplasty, 427
